"(I'm) Proud to make a positive contribution to the field of kempo in UGM through this," he said on Tuesday (12/4) at UGM.

The success of the man from Dumai, Riau province, is due to his hard work and regular exercise under the guidance of Kempo student activity unit UGM. He did intensive exercise for three months before competing in the ASEAN kempo championship.

"Thanks to Kempo UGM unit, the university, and alumni, as well as all those who have provided support so that I can achieve this accomplishment," he said.

Fadli hopes the achievement they have made could be a motivation for other kempo athletes at UGM and they can score more achievements in various championships for UGM. (UGM / adelily)
