Rector of UGM, Prof. Ir. Dwikorita Karnawati, M.Sc., Ph.D., opened the event by appreciating all members of the Board for their time and energy as well as thinking to guard UGM in its journey to be better.

UGM elected members of the Board for the period of 2016-2021, who are: Prof. Dr. Pratikno, M.Soc.Sc., Prof. Ainun Na'im, MBA., Ph.D., Prof. Dr. dr. Hardyanto Soebono, Sp.KK(K), Prof. Dr. Ir. Sofian in his remarks said he had recommended the 42 new Board members to guard UGM for the

next five years. Sofian added members of the Board coming from multi-disciplined areas will form a good combination.

“The members from multidisciplinary areas will become the strength for UGM,” said Sofian.

The new Chair Pratikno in his remarks said the Board authorities had been mostly carried out, but there are still some homework to do. “The homework for the Board now is not only to carry out the authorities to monitor and evaluate, but also help resolve problems that affect the university,” he said.

According to Pratikno, currently the Board had to help sort out bureaucratisation in the university. If this is solved, researchers and academics can focus on their research without being bothered by administrative work. Pratikno proposed a work division by forming two committees, being internal and external committees. The internal committee will manage matters related to internal affairs while the external one on external affairs.

“We’d like to ask for help from all attendees here to assist us so that the programme that we have devised already can be achieved,” he said.
