The cooperation includes host to host payment facilities that cover account information on which UGM will receive information registered in the host to host facilities. For transaction, the payment instruction to accounts uses facilities such as inhouse transfer, payroll transaction, clearance (SKN) and RTGS and telegraphic transfer.

Rico Usthavia hoped as partner of UGM, PT. Bank Mandiri would be able to develop financial platform or other related matters. They also hoped to be able to facilitate the needs of students through mobile applications.

Rector of UGM said she would be ready to follow these up, especially the programmes that are related to the development of *Smart and Resilient Village*.

"*The Smart Village* that we develop now very much needs support from everyone. The generous assistance from Bank Mandiri is meaningful and innovative.
