

# UGM Cooperates with PT. SEI Indonesia for Apprenticeship

Thursday, 05 August 2010 WIB, By: Marwati

---

YOGYAKARTA-Universitas Gadjah Mada (UGM) signed an MoU today with PT. System Engineering Integrator Indonesia (PT.SEI-Indonesia), done by Prof. Dr. Fatchan Nurochmad, M.Agr., caretaker of UGM Vocational School and Daniel Joseph Pisanelli, President Director of PT.SEI-Indonesia.

In his speech, Prof. Dr. Fatchan Nurochmad said that the cooperation was an apprenticeship partnership, especially for students of UGM Vocational School in Electronical Engineering and Mechanical Engineering.

“This program is expected to produce transfer, exchange and scientific and technological development in design and mechanics among our students,” Fatchan said at UGM Leadership Meeting Room on Wednesday (4/8).

Fatchan said that UGM students who will be on apprenticeship are those at fifth semester at the minimum. Opportunities for work at PT.SEI are open, too.

Daniel Joseph Pisanelli said that this cooperation is a follow up to the UGM visit to PT.SEI in April. He welcomed the partnership due to UGM competent students and alumni in electronical and mechanical areas.
